Queensland Journal of Agricultural and Animal Sciences

VOLUME 23, 1966

PUBLISHED QUARTERLY
By the Queensland Department of
Primary Industries, Brisbane

S. G. Reid, Government Printer, Brisbane

Queensland Journal of Agricultural and Animal Sciences

VOLUME 23, 1966

CONTENTS

No. 1, MARCH

PAGE

Seasonal productivity of some pure grass and mixed grass/glycine swards in a tropical highland environment. By G. W. Kyneur 1

Studies of a strain of *Alternaria citri* Pierce, the causal organism of brown spot of Emperor mandarin. By K. G. Pegg 15

Insecticidal control of *Phthorimaea operculella* (Zell.) in Central Queensland. By P. D. Rossiter and B. N. E. Sabine 29

Studies of plant and soil nematodes. 12. The eucalypt cystoid nematode *Cryphodera eucalypti* n.g., n. sp. (Nematoda: Heteroderidae), a parasite of eucalypts in Queensland. By R. C. Colbran 41

Some effects of paraffin wax emulsions on bananas. By J. R. Blake 49

Ripening of raw farm cream in Queensland. By Lorna G. Lightbody 57

Partition chromatography of trichlorphon. By D. J. Hamilton 69

Relationship between certain physical changes and the climacteric phase in the banana. By B. C. Peacock 77

Sterilization of banana fruit infested with banana fruit fly. By G. W. Saunders and R. J. Elder 81

Effect of nitrogen fertilizer on the emergence of wild oat (*Avena ludoviciana*). By F. B. Watkins 87

Lucerne mosaic virus in Queensland. By G. M. Behncken 91

Hepatic vitamin A reserves in drought-stricken cattle. By R. J. W. Gartner and G. I. Alexander 93

Diagnosis of phosphorus deficiency in grazing beef cattle. By K. W. Moir 97

Incidence of *Cochliobolus sativus* in Queensland wheat crops. By R. J. Ledingham .. 101

No. 2, JUNE

Maintenance of citrus seed viability. By W. V. Mungomery, G. W. J. Agnew and E. T. Prodonoff 103

A new bacterial leaf spot of Antirrhinum seedlings caused by a subspecies of *Pseudomonas fluorescens* Migula, 1895. By Melda L. Moffett 121

Bacterial leaf spot of cape gooseberry in Queensland. By Melda L. Moffett and D. S. Teakle 133

Identification of the virus causing papaw yellow crinkle with tomato big bud virus by transmission tests. By R. S. Greber 147

Insects and mites associated with stored products in Queensland. 2. Lepidoptera. By B. R. Champ 155

Insects and mites associated with stored products in Queensland. 3. Hymenoptera. By B. R. Champ 177

PAGE

Insects and mites associated with stored products in Queensland. 4. Acarina and Pseudoscorpiones. By B. R. CHAMP 197

Subtropical grass growth. 1. Relationship between carbohydrate accumulation and leaf area in growth. By L. R. HUMPHREYS and A. R. ROBINSON 211

Effect of lucerne–wheat rotations on the yield and quality of subsequent wheat crops on the Darling Downs, Queensland. By R. L. HARTY, W. T. KELSO, R. B. BYGOTT and D. H. C. SETON 261

Flood tolerance of winter crops in southern Queensland. By G. L. SWARTZ .. 271

Modification of the cracking pattern on a black earth of the Darling Downs, Queensland. By G. L. SWARTZ 279

Effects of grazing lucerne supplementation and stocking rate on sheep and native pasture productivity in the Queensland traprock region: Progress report 1962–1965. By G. R. LEE and W. E. M. ROTHWELL 287

Effects of feeding tallow on performance and carcass quality of dairy calves. By K. H. MCINTYRE and I. H. RAYNER 299

A survey of the accuracy and use of three milk meters. By C. H. CLARK 305

Antibodies to leptospiral serotypes in sera of North Queensland cattle. By MARGARET H. LUCAS 309

Studies of Macropodidae in Queensland. 4. Social organisation of the grey kangaroo (*Macropus giganteus*). By T. H. KIRKPATRICK 317

No. 3, SEPTEMBER

Subtropical grass growth. 2. Effects of variation in leaf area index in the field. By L. R. HUMPHREYS 337

Influence of soil bulk density on nutrition and growth in the tomato. By R. C. MENARY and N. S. KRUGER 359

Some field observations on crown rot disease of wheat caused by *Fusarium graminearum*. By T. MCKNIGHT and J. HART 373

Tip-burn of lettuce in relation to calcium nutrition. By N. S. KRUGER 379

Sandalwood (*Eremophila mitchellii*) control in gidyea country. By D. L. PURCELL .. 387

Interaction of moisture storage at planting and nitrogen fertilization on wheat yield on a black earth. By G. L. SWARTZ and B. J. WHITE 397

Water entry into a black earth under flooding. By G. L. SWARTZ 407

Studies of plant and soil nematodes. 13. *Tylenchulus clavicaudatus* n. sp. (Nematoda: Tylenchulidae), a parasite of the liana *Deeringia arborescens* (R.Br.) Druce. By R. C. COLBRAN 423

Influence of refrigeration and storage of raw farm milk in bulk tank units on bacteriological quality. By M. G. SMITH and W. D. MITCHELL 429

Studies of Macropodidae in Queensland. 5. Effects of drought on reproduction in the grey kangaroo (*Macropus giganteus*). By T. H. KIRKPATRICK and J. S. MCEVOY .. 439

No. 4, DECEMBER

Studies of varietal resistance to crown rot of wheat caused by *Fusarium graminearum* Schw. By G. S. PURSS 475

Subtropical grass growth. 3. Effects of stage of defoliation and inflorescence removal. By L. R. HUMPHREYS 499

Passion-fruit woodiness virus as the cause of passion vine tip blight disease. By R. S. GREBER 533

Stock and scion investigations. XII. Jonathan apple on Malling–Merton, Malling and Northern Spy rootstocks. By L. A. THOMAS 539

PAGE

Stock and scion investigations. XIV. Delicious apple on Merton and other clonal rootstocks. By L. A. THOMAS 547

Studies on pesticide residues. 1. Excretion of pesticides in milk following dermal treatment of dairy cattle with coumaphos and dioxathion. By I. S. HURWOOD 555

Influence of alternate-day collection on the bacteriological quality of refrigerated farm bulk milk. By M. G. SMITH and W. D. MITCHELL 563

Studies of Queensland Tetranychidae. 1. *Oligonychus digitatus* sp.n. (Acarina: Tetranychidae), a spider mite from grasses. By J. J. DAVIS 569

Studies of waterflowl (Anatidae) in north Queensland. 1. Introduction, species, distribution and habitat. By H. J. LAVERY 573

Mammals, birds and reptiles of the Warwick district, Queensland. 1. Introduction and mammals. By T. H. KIRKPATRICK 591

Observations on physical and chemical properties of acerola fruit and puree. By B. I. BROWN 599

Studies on the fungus *Sphacelotheca sorghi* (Link) Clinton. 1. Effects of position of inoculum and stage of development of the germinating seed on infection. By T. MCKNIGHT 605

A modified complement fixation test for bovine contagious pleuropneumonia for large-scale laboratory use. By R. E. TEAKLE 609

INDEX TO VOL. 23
